

There are three Community Service Officers, whose work involves support services to the patrol, traffic, and detective divisions, through neighbor or group mediation, problem-solving, use of additional Town-needed resources, and follow-up investigations. A lot of their work deals with special populations such as the elderly, homeless, and people in need of mental health resources.

Other community-oriented programs include crime prevention and safety programs, drug and alcohol awareness particularly within the schools, graffiti, CPR/First Aid, emergency awareness and preparedness to name a few.
